PROFESSIONAL SUMMARY

Passionate Full-Stack Developer with strong expertise in modern frontend technologies (React, TypeScript, Tailwind) and backend development (FastAPI, Node.js). Experienced in building complete web applications from scratch, including real-time systems and AI-powered tools.

EXPERIENCE

Kloudtech - Intern

April 2025 – April 2026

- Redesign the user interface of the application as well as the dashboard
- Implement a posting feature where user can post an incident report around their area.

AWS Cloud Club – Vice Chief of Creatives

September 2023 – Present

- Lead creative projects and visual content creation for the club's events and online presence
- Collaborate with Operations and Creatives committees to organize community activities and workshops

Ryzenation - On-the-Job Training

June 2023 – August 2023

- Provided technical support and troubleshooting for customers' computer hardware and software issues
- Performed system maintenance and basic network diagnostics to ensure reliable operations

Gordon College – Student Developer

August 2022 – Present

- Developed multiple full-stack web applications as part of advanced coursework and personal initiative, utilizing modern frameworks including React/Nextjs and Angular.

PROJECT

AttendEase — Full-Stack Developer

- Developed a complete student event registration and attendance management system using Angular, PHP, and MySQL
- Implemented QR code-based attendance tracking and real-time event registration functionality
- Created admin dashboard for event organizers to manage participants and generate reports

CourseCraft — Full-Stack Developer

- Developed an AI-powered study assistant application for web and desktop platforms using React and FastAPI
- Integrated large language models to provide features such as note summarization, quiz generation, and personalized study recommendations
- Built a complete backend system with PostgreSQL to handle user data and conversation history

TECHNICAL SKILL

Frontend: React, Nextjs, Typescript, Tailwindcss, ShadCN, Angular

Backend: FastAPI, Node.js, Express.js, Python, PHP

Databases: PostgreSQL, MySQL, Supabase, Firebase

Others: RESTful APIs, Git, WebSockets

EDUCATION

Gordon College - Bachelor of Science in Computer Science

Aug 2022 - Present
